The Halachic Architecture of 613.org

Dimension	Classical Tech Capitalism	The Halachic Operating System
 Biological Data (Shmiras HaGuf)	Monetized consumer extraction. 	Elevates WFPB nutrition to a sacred obligation, providing uncorrupted biometric inputs for AI calibration. 
 Pricing Logic (Ona'at Mamon)	Speculative arbitrage and surge pricing. 	Strict 16.7% overcharging ceiling. AI automatically blocks and reroutes predatory behavior. 
 Capital Structure (Heter Iska)	Usury, compound interest traps (Ribbit). 	Joint-venture shared profit/loss, transforming debtor-creditor dynamics into equitable partnerships. 

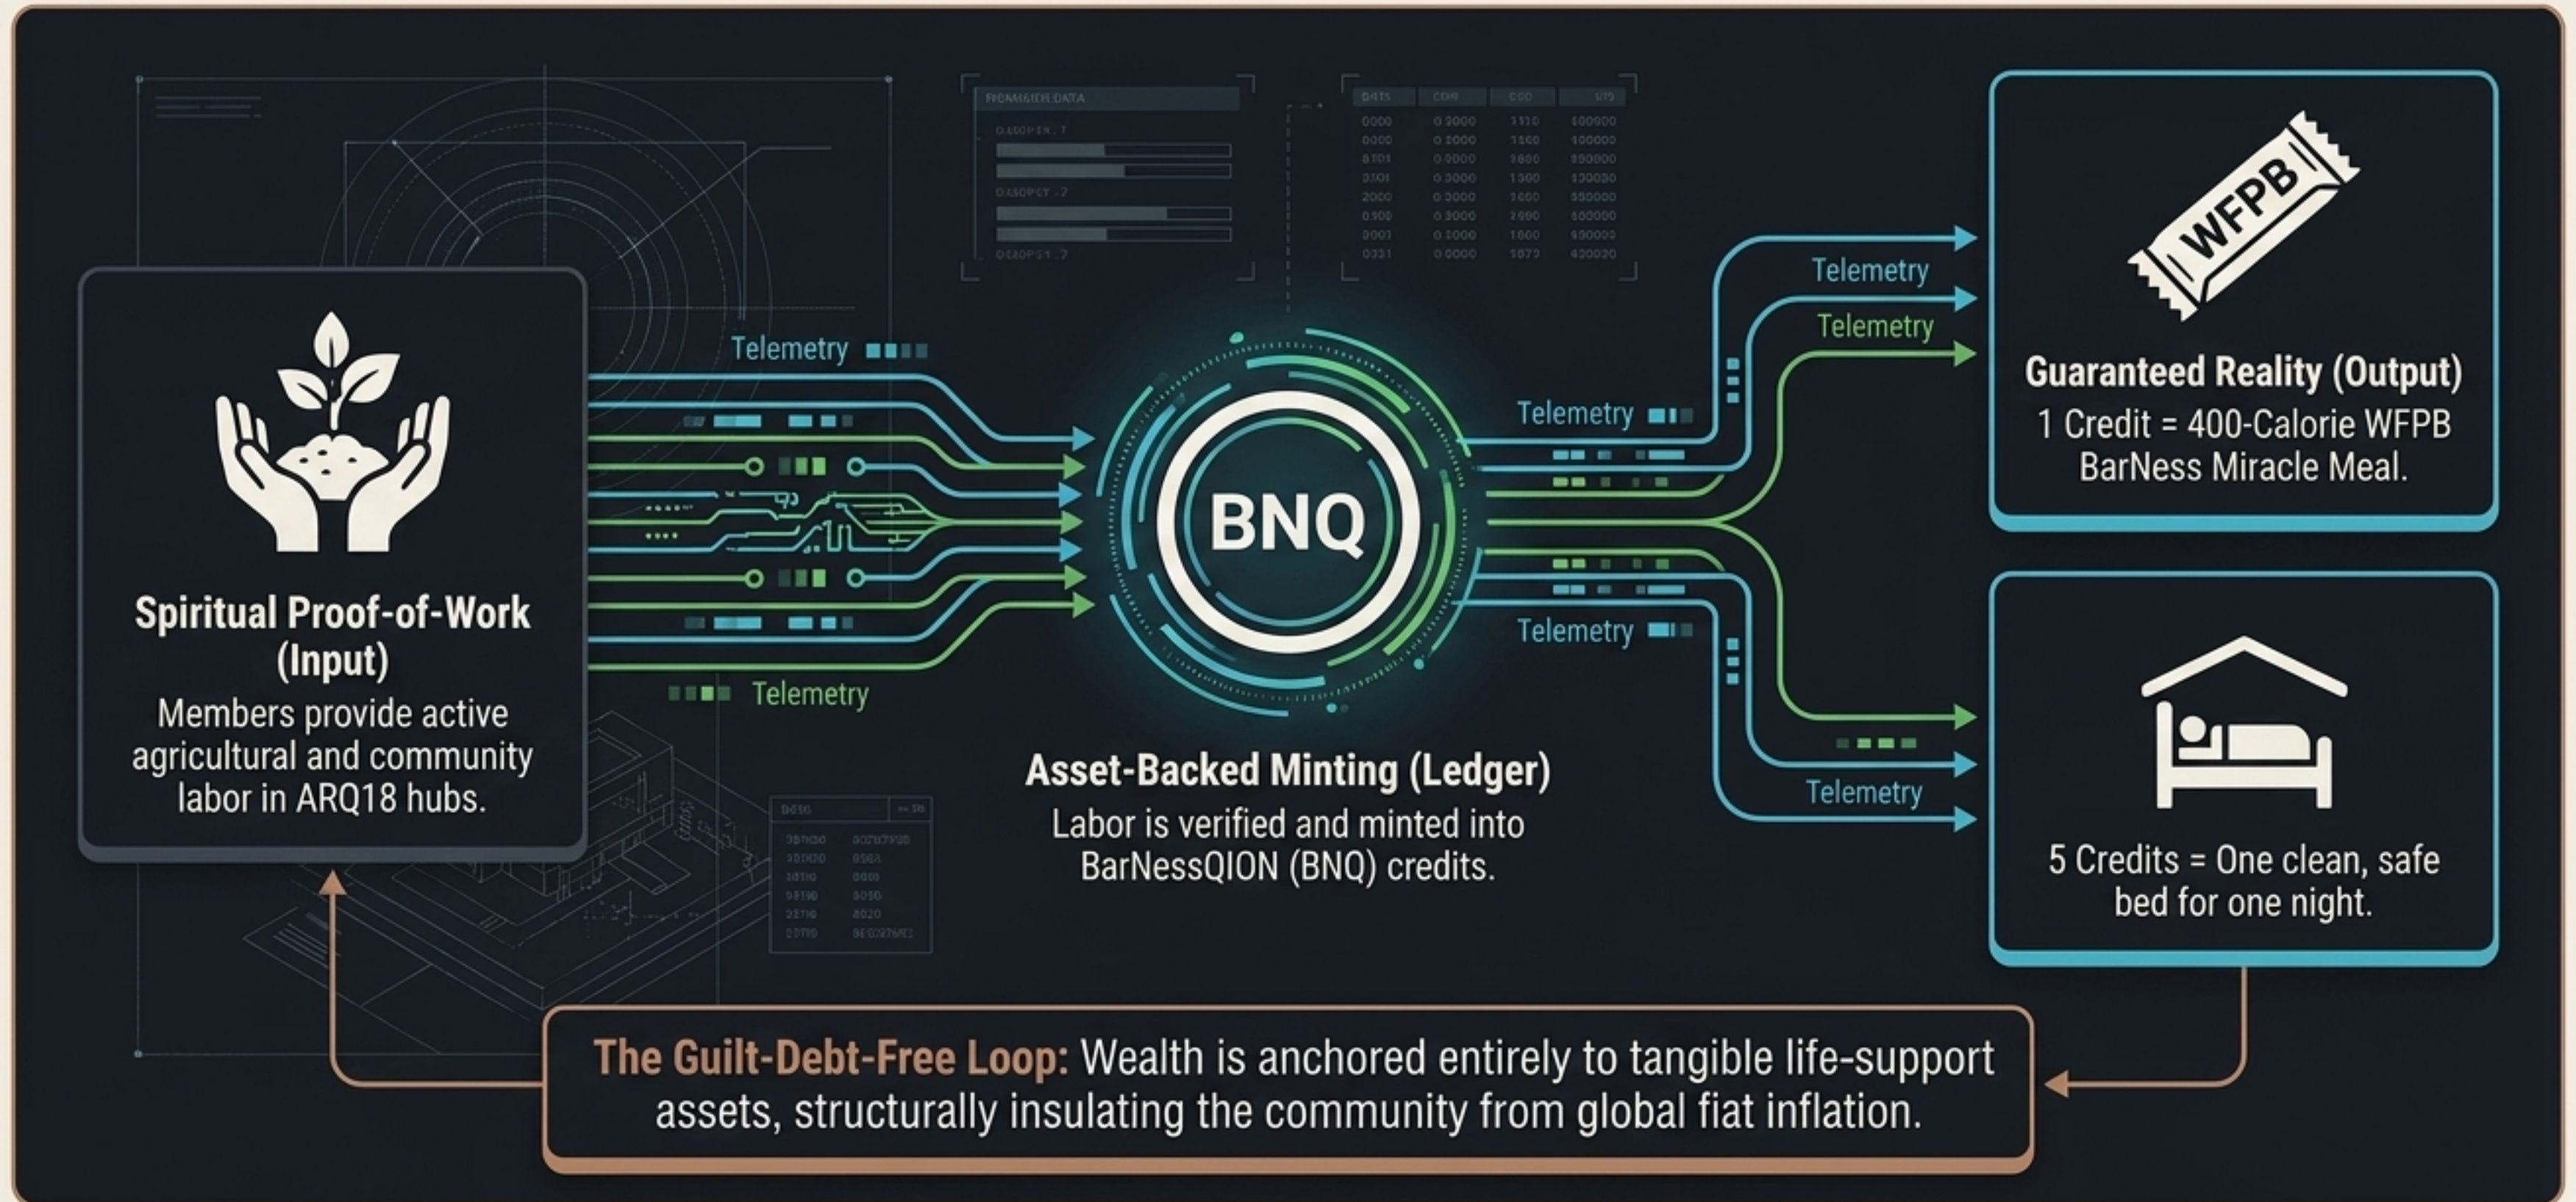

Governed by the 613.org framework under Rabbi Don Channen—serving as the root moral validator for the QION network.
